This place is great, don't come here on a full stomach. This drive thru has their tubs of ice cream, kawartha cheese, kawartha milk and more for sale. We came here to cure our ice cream cravings, and also recommended by our good friends that this heavenly place existed. We ordered orange creamsicle, birthday cake and cookie dough in cups. They were super rich and filling, we weren't able to finish it all. But we enjoyed every single bite of it all. They aren't stingy with their scoops either. Which is greatly appreciated, considering some places like to practically weigh out their scoops before giving them to you *eye roll*. Definitely a must go, all the staff are super happy and nice (as they should be, you work with ice cream! it's against the law to be sad when you're around ice cream) Prices are very reasonable, and service is good.
